## About This Game

*Please note that this game is still very much being developed. We need a great number of players to be able to try all the things we aim to do and we also look for your input into how to make this into a great party game.*

Aviators is a fast paced, highly competitive, party game, played online in teams with up to 4 players a side. Crash and be crashed as you battle for the highest score before the time runs out.

**Challenge other teams of Aviators online** in this chaotic and entertaining game.

**No fancy power ups, just steering skills and timing.** You have a limited amount of lives and there's a clock on each round so use them both wisely.

**Securing points under cover from your team mates** or making the ultimate sacrifice for the greater good of your team, what role will you play?

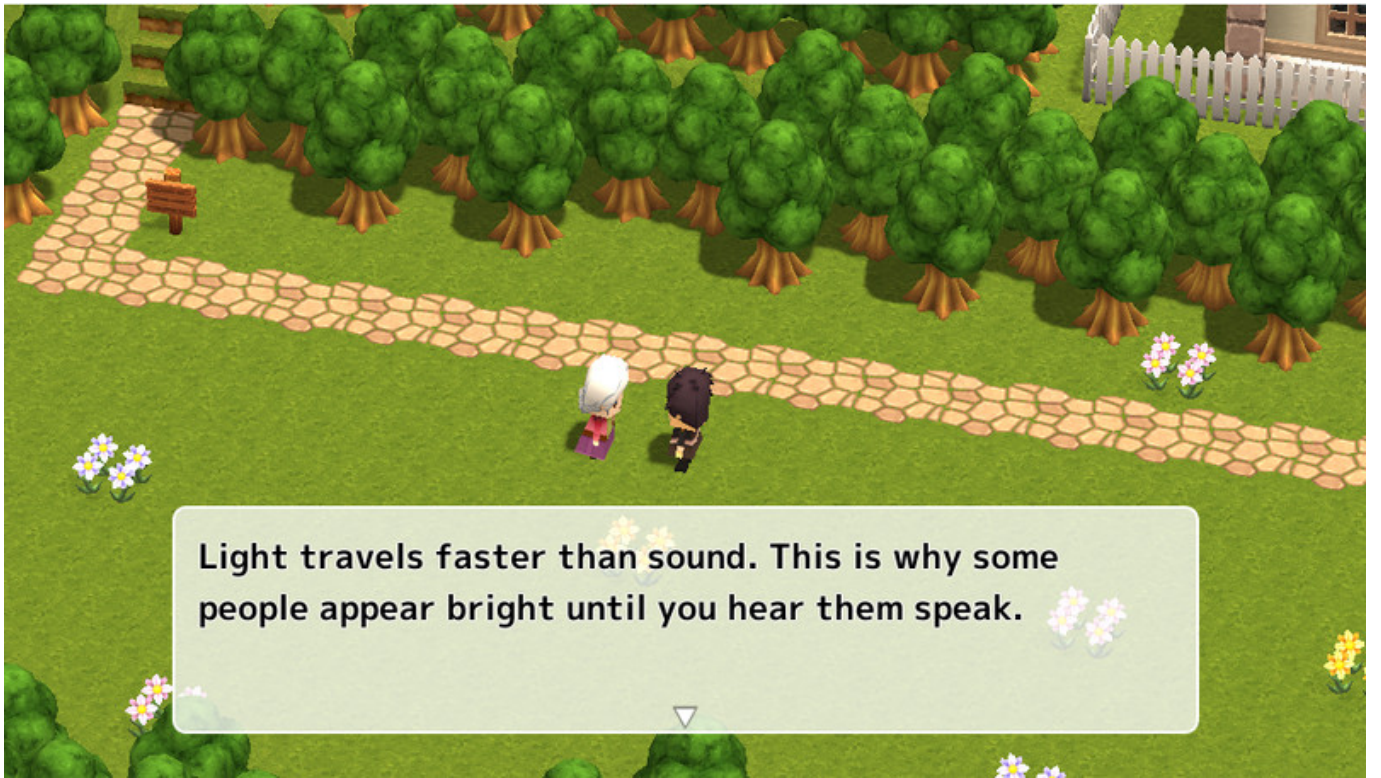

**Grab some controllers** (highly recommended), call your (at least for now) friends and take to the skies - *This is Aviators!*
